THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half Yearly or Quarterly, by parties assured for the whole term of life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All Losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

THIS Company offers increased inducements for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one third as much as in Stock Companies, saying nothing of the increased security, and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

(Late Butterfield & Averell's,)

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent. less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 100 original Casks of the most approved brands of
Brandy, Gin, Rum, Wines, &c.
The following may be found among my stock:—

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 19th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
Philadelphia."
May 10, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

WEDNESDAY MORNING, DEC. 17, 1851.

Rufus King, Wm. H. Watson & John. S. Fillmore, PROPRIETORS
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

OFFICIAL PAPER OF THE CITY.

The President's Message and the Tariff.

The *Commercial* of yesterday, unable to meet by argument, the arguments advanced by the friends of Home Industry, in favor of a Tariff discriminating [illegible], resorts to misrepresentations as wild, and as easily exposed, as in another late and very glaring case. It says:

"The whig press of Wisconsin had prepared the way for a Message for the Whig President, in which a high Protective Tariff would be one of the most prominent features. However, in that [illegible] been disappointed. Mr. Fillmore, instead of asking a Tariff for protection, the strong point in his message, *has most unequivocally given it the go by.* The attention of Congress is called to the subject of a modification of the present tariff in a single respect; the substitution of *specific* for *ad valorem* duties for a [illegible] purpose, *the protection of [illegible].*"

The assertion that President FILLMORE has given the question of a Tariff for protection, "unequivocally the go by," is most unequivocally and essentially false, as the following extracts from the message show:

"In my last annual message, to which I respectfully refer, I stated briefly the reasons which induced me to recommend a modification of the present tariff, by converting the ad valorem into a specific duty, wherever the article imported was of such a character as to permit it, *and that such a discrimination should be made in favor of industrial pursuits of our own country, as to encourage home production, without excluding foreign competition.* The numerous frauds which continue to be practised upon the revenue by false invoices and undervaluations, constitute an unanswerable reason for adopting specific instead of ad valorem duties in all cases where the nature of the commodity does not forbid it. A striking illustration of these frauds will be exhibited in the report of the Secretary of the Treasury, showing the custom house valuation of articles imported under a former law, subject to specific duties, when there was no inducement to undervaluation, and the custom house valuation of the same articles under the present system of ad valorem duties so greatly reduced as to leave no doubt of the existence of the most flagrant abuses under existing laws. The practical evasion of the present law, combined with the *languishing condition of some of the great interests of the country, caused by over importations, and consequent depressed prices,* and with the *failure in obtaining a foreign market* for our increasing surplus of breadstuffs and provisions, has induced me again to *recommend a modification of the existing tariff.*"

And again, after noticing the falling off in the export of breadstuffs and provisions from $68,[illegible] in 1847, to $26,000,000 in 1850, and $21,[illegible] in 1851, the President says:

"[illegible] the principle which dictated a low rate of duties on foreign merchandise, it was thought by those who promoted and established it, would tend to benefit the farming population of the country by increasing the demand and raising the price of agricultural products in foreign markets."

The fallacy of these hopes is shown by the result above.

Again, the *Commercial* in another article, says:

"Not content with the rebuff received in the Message of President Fillmore, the Sentinel of yesterday morning indulges in a long article on Home Markets, as connected with the Tariff. In that article they especially dwell upon favoring a *prohibitory* Tariff. What, then, in a few words, do they evidently contend for? Simply that foreign goods may still be introduced, and consumed by our farmers, but at *an advanced price.*"

Not so! We don't contend for any such thing. We contend for just that very sort of measure, as to the propriety of which, a few days since, you said "we should not widely differ," viz: a Tariff discriminating in favor of American labor. We contend for a policy which shall assure those who shall build up manufacturing establishments in the country, that government cares for their interests as much as it does for those of foreign artizans; a policy which shall build up, increase, and maintain a home market, and thus secure good prices for the produce of agricultural labor. That is what we contend for.

MASSACHUSETTS MUNICIPAL ELECTIONS.—The elections for Mayor and Common Council took place in several cities of Massachusetts, on Monday week. In Boston the vote for Mayor stood thus:

Wightman, whig,	4,426
J. V. C. Smith, (nominated by the Native American Citizens.)	2,730
Thaxter, dem.,	2,128
Williams, free soil,	407
Scattering,	86

The variety of tickets voted for was greater than at any former election. There were the Citizen's ticket, the American ticket, the Irish ticket, the People's ticket, the Maine Law ticket, the Ex-Firemen's ticket, the Free Soil ticket, and the regular Whig and Democratic tickets.

The Whigs carried the Common Council and three of the Aldermen. For the others, there was no choice.

In Lowell, the Whigs swept the board, electing their Mayor, DR. HUNTINGTON, all the Aldermen, and 19 out of 24 of the Common Council. CALEB CUSHING was re-elected Mayor of Newburyport, RICHARD FROTHINGHAM, Mayor of Charleston, and SAMUEL WALKER, Mayor of Roxbury.

SINGULAR TASTE.—The *Wisconsin* seems determined to keep the public in mind of its lack of enterprise in getting the Message, and to keep before them the fact that we had it first. Well! we bear it like martyrs. It has the kindness to correct our statement that we issued the Message in our tri-weekly of Friday. We respectfully renew the assurances of our distinguished consideration to our critical neighbor, for the correction. We issued it on Wednesday evening. It was the *Wisconsin* that issued it on Friday evening.

LAND GRANTS TO WISCONSIN.—We have already noticed that bills have been introduced in the Senate, by Mr. Walker, for grants of land to this State to aid the Milwaukee and La Crosse, and Fond du Lac and Janesville railroads, and for the River Improvement. By the published proceedings of the 9th, it will be seen that Senator Dodge introduced on that day a bill to grant lands in aid of the Milwaukee and Mississippi Railroad.

It is gratifying to find these bills brought forward so early in the session, and we hope for the best results. The thanks of the people of the State will be given to their representatives in no stinted measure, if they pull together, and get the bills through.

CONTESTED ELECTION.—A correspondent of the *Journal*, writing from Mineral Point, states that the certificate of election, for the north Assembly District of Lafayette County, was wrongfully given to MURPHY, Democrat. His competitor, Mr. HAMMOND, who was an Independent, received upwards of a majority of the votes cast; but the Board of Supervisors threw out two precincts, which gave Hammond 68 majority, and declared Murphy elected by 18 votes. If this be so, the Assembly, on petition, will undoubtedly reverse the decision of the Supervisors, and give the seat to Mr. HAMMOND.

RAILROAD MEETING.—The citizens of Dane Co. are to meet in Convention this week, on Saturday, to take into consideration ways and means of ensuring the speedy completion of the Milwaukee and Mississippi Railroad. They will doubtless decide on asking of the Legislature a bill providing for a county subscription to the stock. Success to their well directed efforts to help themselves.

CANADIAN PARLIAMENT.—The Hamilton *Express* announces the election of Honorable Francis Hincks, from the Oxford district. His majority was very small—only seventy eight. He is at the head of the present Cabinet of Lord Elgin. Mr. White, reformer, the same paper states, is elected in the [illegible] district. Col. Prince is elected to the Canadian Parliament for Essex, by a majority of 318, over his opponent Mr. Caron.

WINTER NAVIGATION.—The Cleveland *Plaindealer* says that the *Empire State* is to run all winter, if the ice permit.

The ice won't permit much longer, if they have any such thermometers down east as we have here.

The President and Kossuth.

Telegraph exclusively to the New York Express.

WASHINGTON, Dec. 8.

Congress hesitating so long, and so much, what sort of a "Welcome" to give to Kossuth, the President despatches his son, and Acting Private Secretary, M. P. FILLMORE, Esq., to welcome him, on behalf of the Executive, and to invite him to visit the Administration of the Government in Washington.

Mr. Fillmore, jr., left this morning, and will bear with him this most fitting and appropriate compliment. Yours,

SPECTATOR.

KOSSUTH, having come to this country by invitation of Congress, and (part of the way) in a national ship, the President has manifested prompt and proper courtesy in this step. Congress too, having adopted almost unanimously the resolution offered by Gov. SEWARD, tendering to KOSSUTH a welcome to the Capitol and the country, we presume that the distinguished Hungarian hero will now visit Washington and be received there as the Nation's Guest.

Agricultural Statistics.

Maryland is the first State whose agricultural statistics by the census, make their appearance.—We give some of the items below:

Indian Corn raised in 1849, bus.	11,104,631
Wheat	4,256,951
Tobacco, pounds	21,199,281
Wool, "	477,438
Potatoes, bush.	970,328
Value of live stock	$7,997,634
Butter, pounds,	4,266,160
Cheese, "	3,925
Flax, "	34,633
Maple Sugar, pounds,	47,740

By the classification given in the Baltimore *Sun*, we learn that 438,966 of the population are natives of the U. States, 3467 of England, 19,557 of Ireland, 1152 of Scotland, 26,936 of Germany.

HOYLE vs. BLACKSTONE.—Judge Grier, who has been trying the treason case, in Pennsylvania, seems to be as devoted to whist as to law, and is continually making allusions to, and drawing illustrations from the game.

In the proceedings on the trial in the course of one day, we find the Judge remonstrating with the prosecution against bringing any more witnesses, and saying:

How long do you intend to examine witnesses to a point of character? Are you not satisfied to take the odd trick, or do you want 3 or 4 for one?

In another instance the following dialogue occurred:

Judge Grier—It has been admitted by both sides that he is indicted as one of the conspirators. It is like playing a game of whist, and holding back a trump to win the last trick with.

District Att'y Ashmead—Your Honor seems to be acquainted with the game.

Judge Grier—I don't deny that I am well acquainted with it.

FIRE ON PLEASANT PRAIRIE.—We learn by a private despatch from Kenosha, that a new and unoccupied brick house, belonging to Mr. THOS. HOWLAND, on Pleasant Prairie, 2 or 3 miles from the city, was consumed by fire yesterday forenoon, together with the dwelling house of the family, immediately adjoining. Only a small portion of the furniture was rescued from the flames. Mr. HOWLAND was somewhat, though not seriously injured, in his efforts to save a portion of his property. There was no insurance on either of the buildings, or their contents, and the loss falls heavily upon the family.

SOUTHERN "DEMOCRACY."—The legislature of that exceedingly "democratic" State, South Carolina, in which not a single whig newspaper is published, has again *refused*, by a vote of 66 to 48, to allow the People to choose the Presidential Electors. Less than *one-third* of the Free white population control the legislature, and this rotten-borough oligarchy seem determined to keep in their own hands the disposition of South Carolina's Electoral vote.

DILLESON SMITH.—This gentleman, whose where-abouts, as a diplomatic agent of the Tyler Administration, excited considerable curiosity, has recently turned up again in Iowa. He says:

It was quite pardonable for Prentiss of the Louisville *Journal*, to joke about my having been *lost*—when *I knew where I was all the time*—but no man shall seriously charge me with having intentionally remained away for the purpose of defrauding the Government! This no man shall do within the reach of my right arm.

☞ A somewhat singular trial is to take place next week in Canandaigua, in which a farmer named Wooden is indicted on suspicion of having caused the death of his wife some fifteen years ago. The defendant, it is said, is a member of the Methodist Church, and had borne the character of a most exemplary man prior to this charge. A large number of witnesses are to be examined, and the trial will probably occupy a long time.

THE GREAT FRENCH LOTTERY.—The drawing of prizes in the great lottery of Les Ingots d'Or took place in Francoui's Ampitheatre, in the Champs Elysees, on Saturday, the 18th of November, in the presence of an immense concourse of persons. The first prize, of 400,000f, was won by an engine driver on the Great Northern Railway; and the second of 200,000f. by a journeyman hairdresser in humble circumstances.

MR. THRASHER.—The Charleston papers of Dec. 8th, report, on the authority of the Captain of the Brig *Argus*, just arrived there from Havana, that Mr. THRASHER was allowed to go to Spain as a cabin passenger, and met generally with kind treatment. We do not doubt that the Spanish Government will release MR. THRASHER and the rest of the Cuban prisoners, after a very brief imprisonment.

CLERK OF THE SUPREME COURT.—We learn from Madison that the Judges have made choice of Lt. Gov. BEALE, as Clerk of the Supreme Court, in place of J. R. BRIGHAM, resigned. Whether the other retiring State Officers are to be as well provided for, we do not know. Mr. Beale is a man of decided ability, and quite competent to the duties of his new office.

☞ The editor of the Albany Knickerbocker relates the following personal experience on the ice:

The skating, on Saturday, was really excellent. We put on a pair of "rockers," cut two spread eagles, plunged into an air hole and then cut for home. Time 3 min. 2 sec.

LOSS OF A CLIPPER SHIP.—The fine clipper ship *Memnon*, of New York, was lost in Gaspar Strait on the 10th of September. She was bound from Hong Kong to London, with full cargo of teas and silks, and struck upon a reef not laid down in the charts. Both ship and cargo were a total loss.—The crew escaped in their boats.

☞ Advices from Madrid state that the Spanish Government has granted a free pardon to 23 British subjects, who had taken part in the expedition of Gen. Lopez against the island of Cuba, and were sentenced by the authorities in that Island to be transported to the penal establishments of Spain for their offence.

☞ The announcement that Mr. RIVES, our Minister to France, had arrived in the *Pacific*, turns out to be a mistake. Mr. W. C. RIVES, Jr., the son of the Minister, was among the *Pacific's* passengers.

ILLNESS OF AN M. C.—We regret to learn that Hon. John P. Darby, the able Whig Representative from the St. Louis district, Missouri, has been struck with paralysis in both arms and legs, and is not expected to recover.

N. Y. CANAL LOAN.—The Comptroller of N. Y. has advertised for proposals for $500,000 of the Canal Revenue certificates. Proposals to be received till the 23d inst. They are redeemable in July, 1866, and bear 6 per cent interest.

HUDSON RIVER RAIL ROAD.—The Albany papers say that the Hudson River Rail Road is doing a very heavy freight business, far beyond what was anticipated. The passenger travel continues large.

WELL DONE.—One hundred citizens of Albany have contributed the handsome and ample sum of $3,343, for the furnishing of the new rooms of the Young Men's Association. The sums subscribed range from $500 to $10.

The Northern Improvement Again—More Developments.

We copy from the Oshkosh *Telegraph* the following statements relative to the doings of the officers entrusted with the work on the Fox River Improvement. In the face of the direct Constitutional provision on the subject of a State debt, it seems scarcely possible that the Register and Treasurer can have conducted themselves as represented, but we have lived long enough to know that neither the letter or spirit of the Constitution are of any particular consequence in the eyes of the "regular democracy." We invite the attention of the new Secretary of State to the matter, and claim the fulfilment of his promise:

The great Northern Improvement is a State work, and as such, is and has been prosecuted.—The 8th article of the Constitution provides: "That the State shall never contract any public debt,"—that "no scrip, certificate, or other evidence of State debt whatever, shall be issued," and, that "the State shall never contract any debt for works of internal improvement."

The Constitution is emphatic and plain, and yet is regarded as a dead letter. The Register and Treasurer of the State Land Office are daily issuing scrip or "evidences" of State indebtedness, in payment of the liabilities to contractors and others. There are large amounts afloat, and in no case realize over 75 per cent., and seldom over 50. Every one will see in a moment that there is a serious swindle *somewhere*; because, no contractor would submit quietly, to be paid in such trash, who had faithfully executed his work, and expected to be paid in cash, unless he was perfectly well *satisfied*, from some source or another. It is known to the contractors who receive these orders that they are backed by no funds, funds, deposits, or any consideration, equivalent to their possible redemption at any future time. It may be urged that Congress will grant additional lands, by which they may be redeemed; but Congress neither can nor will pass any such resolve for the purpose of paying the debts or extravagance of any State.

The thing will finally merge itself into some individual claim, and hang before the legislature until paid.

But the swindle upon the people is no greater than the outrage upon the Constitution. Neither escape the knowledge of the Governor and the high officers of the State, yet it passes along, and is tolerated without a murmur.

But should these 'promises' be repudiated, i. e. should the legislature refuse to indemnify the holder, then he has to lose them, or wait until a change may be effected in party ascendancy, that would compensate him.

City Matters.

Firemen's Festival.

The annual concert for the benefit of our Fire Department took place at Gardiner's Hall on Monday evening, and in spite of the intense cold, attracted a numerous and brilliant audience. The severity of the weather made it extremely difficult to warm the large Hall, and it was so cold on the stage that it was a task of no small difficulty for the performers to sing, or play at all. Nevertheless, they went through with the programme as announced, except that the German Quartette came up missing, one of their number being indisposed. The vacancy was filled by Professor BALATKA, who kindly volunteered a song. Mr. HEMPSTEAD'S solo on the Piano and Dr. FESSEL'S on the violin, deserved the warm applause they elicited. Mrs. TORREY, tho' fairly shivering with the cold, sang her pieces with taste and spirit, and was heartily encored, as was also our worthy City Treasurer, LUCAS SEAVER, in both of his pieces. The Quartette from No. 3 acquitted themselves well and brought down the house. The Orchestra from the Theatre, who by the kind permission of Mr. RICE, took part in the Concert, played the Overture to Zampa in excellent style.

As soon as the Concert was over, the floor of the Hall was cleared for a social dance, which was commenced about 10 o'clock and kept up with unflagging spirit, till 3 or 4 in the morning, at which seasonable hour the Chief Engineer gave orders to "take up," and the company speedily dispersed. During the evening abundant and palatable refreshments were served by Mr. GOFF, in his rooms immediately below the Hall. The whole affair went off most satisfactorily and realized about two hundred dollars to the Fire Department.

"ROUGH AND READY" BALL.—The Members of Rough and Ready Company No. 4, one of the ornaments of our Fire Department, give their Annual Ball to-morrow evening, and invite their fellow-firemen and the public generally to honor the occasion by their presence. Their determination is to make the entertainment superior in attractions to any of its predecessors this season, and they hope to meet with commensurate success.—Number Four deserves a benefit, and will, we trust, have a *bumper* to-morrow.

A COLD SPELL.—The extreme cold of Monday continued all thro' yesterday without any perceptible "let up." The Frost King, during Monday night, penetrated into rooms, cellars and closets, usually proof against his attacks, committing sad havoc among the winter stores of careful housewives. The thermometer, tho' not marking quite as extreme a degree of cold yesterday morning, as on the day previous, was still sufficiently frigid, ranging from four to six degrees below zero at 8 A. M.

THEATRE.—The grand spectacle of "Blue Beard" is to be presented to-night, for the third and last time, together with Beaumont and Fletcher's fine old play of "the Elder Brother," in which Mrs. POPE and Mr. HANN sustain the leading parts.—Between the pieces the Orchestra will play a favorite Overture and other music, and the little Baileys will appear in several of their best dances.

SCHOOL TEACHER WANTED.—A well qualified Male Teacher, who can give satisfactory testimonials as to character and capacity, can hear of a good situation in the Northern part of this State by applying at the office of this paper between 3 and 5 o'clock P. M.

HURRYING UP.—The Eastern Mail arrived here yesterday about half-past 9 o'clock A. M.; some seven hours in advance of schedule time. This is doing pretty well for Winter land travel when there is no sleighing.

☞ There was an alarm of fire about 7 p. m. Monday, caused by a burning chimney. Bell-ringers and others should be cautious about sounding alarms unnecessarily, especially in this biting weather.

LANDING OF THE PILGRIMS.—The Sons of New England meet at the United States Hotel *this* evening, at half-past 7 o'clock, to make arrangements for their Annual Festival.

☞ Rev. Mr. Chapin, President of Beloit College, has been invited and consented to deliver a lecture before the Young Men's Association of Chicago.

KEY FOUND.—A large and new brass door Key was picked up on the side-walk yesterday, and left in our Counting Room, where it awaits the orders of its owner.

DANCE AT THE LIGHT HOUSE GARDENS.—Mr. PAUL, Proprietor of the Light House Gardens, gives a farewell Ball there this evening, and hopes to see all his friends on the occasion by way of "a bumper at parting."

MOVEMENT OF U. S. TROOPS.—Yesterday, Brevet Lieut. Col. ANDREW PORTER, in command of company F. of the Mounted Rifles, left Jefferson Barracks on the steamer Amaranth, with his company, embracing nearly one hundred men, for the Barracks at New Orleans. The Regiment of Mounted Rifles has been ordered to Texas, and we presume are to be employed along the line between the United States and Mexico. This is the departure of the first company. The other companies will follow after in due time. This and the other companies will be detained at New Orleans until they are mounted, the horses for which are now being purchased on the Ohio.—*St. Louis Republican, Dec. 10.*

SUPREME COURT.—The Supreme Court met at this place on Wednesday last; all the Judges present except Judge Howe. There is considerable falling off in the business of the Court since last session, there being now but thirty-nine cases on the docket. Mr. BRIGHAM, late Clerk, tendered his resignation, and Hon. SAMUEL W. BEALL was elected in his place.

The term for which the present Chief Justice was elected, expires on the first of January, and according to the understanding under which that election was made, Judge JACKSON will be the next, his term of service being the next to expire. —*Madison Democrat.*

Report of the Commissioner of the General Land Office.

The Annual Report of Commissioner BUTTERFIELD comprises very full details of the business of the Land Office during the past year.

The sales of the public lands from the 30th June, 1850, to 30th June 1851, amount to 1,846,847 49-100 acres; and the purchase money is $2,370,947 45.

The amount of land sold, during the first quarter of the fiscal year, commencing July 1, 1851, was 473,140 65-100 acres, for which there has been received the sum of $601,691 01. The amount of land sold for the corresponding quarter of the last fiscal year, was 260,879 66-100 acres, for which the sum of $319,876 06 was received. The sales thus appear to be largely on the increase.

The quantity of public land proclaimed for market, during the year, amounts to 7,731,537 acres; and the estimated quantity available for market, during the coming year, will not be less than 12,000,000 acres.

The following is a comparative table showing the appropriations of the public lands by sales and military locations for several successive calendar years:

			MILITARY LOCATIONS.		
	Sales.	Go's Rec'ts.	Mex. War.	Act of '50	Aggregate
Years.	Acres.	Dollars.	Acres.	Acres.	Acres.
1847	2,521,305.59	3,296,454 68	250,320	None.	2,771,625.50
1848	1,887,553.04	2,521,615 26	2,288,960	"	4,176,513.04
1849	1,329,702.77	1,756,890 42	3,405,520	"	3,735,222.77
1850	1,405,838.70	1,818,829 32	2,167,680	"	3,573,518.70
1851*	1,516,352.10	1,933,119 58	1,377,600	230,182	3,124,134.10

* First, Second and Third quarters. The Fourth quarter may be estimated in proportion.

The locations by military bounty land warrants during the fiscal year commencing July 1, 1850, cover an area of 2,454,000 acres, making an aggregate of cash sales, and locations by warrant, during that period, of 4,300,846 49-100 acres, which, at the minimum price would amount to $5,276,057 36. The sales, however, exceeded the minimum price by $62,368 09. The whole number of land warrants issued to the 1st Nov., 1851, under the Mexican Bounty Land act of 11th February, 1847, is 80,781. Of this number 66,618 have been returned to the General Land Office as located; and of these located land warrants 66,200 have been patented. The whole number of land warrants issued up to the same period, under the General Bounty Land Law of 28th September, 1850, is 54,201. Of this number, 3,703 have been returned to the General Land Office as located; and of the located land warrants of this class, 1,950 have patented.

The existing provisions of law regulating the surveying operations in California are undefined, and the practical operations, thus far ordered, are restricted to the main lines of survey. The Commissioner recommends the immediate extension of the land system over California, in such details as are best adapted to the peculiar condition of the country; and suggests, for the consideration of Congress, whether it would not be just and proper to make provision, in a supplemental law, for securing to actual settlers, by preemption or otherwise, their improvements, in the smallest legal subdivisions that will embrace them, in all cases, where, at the passage of the act of 3d March, 1851, for the adjustment of California land claims, they were *bona fide* settlers, on alleged grants from the former Governments, allowing at the same time, to the claimants under such grants, an equal quantity on other public lands. This measure may be regarded as being analogous to the principle recognized in the 11 section of the act of Congress of the 26th of May, 1824, for the adjudication of claims by the courts, which act was revived, and extended to several States, by the act of Congress of the 17th of June, 1844.

The archives of the former Government of California have been delivered over to the Surveyor General of the U. S., and the Land Office has sanctioned a proposition from that officer to employ a competent person to arrange, classify, and index them, so as to render the archives available in the examination of titles. It has also been directed, pursuant to the Surveyor General's suggestion, that for their security, the archives shall be kept in tin boxes or trunks, properly labeled, numbered, &c.

According to instructions, the Surveyor General has determined the point of intersection of a base and meridian line in the summit of Monte Diablo (Upper California,) an elevation said to be about 3,600 feet. From this initiatory point of operation he was actively engaged in extending the meridian to the north and south of it, and establishing the base. These, it is expected, will be completed before the beginning of the wet season, during which the surveying operations will, inevitably be retarded. The extension of the standard parallels will follow.

In regard to the mineral lands in California, the Commissioner adheres to the views expressed in his last annual report as to the mode proper to be pursued in the eventful disposal of them.

In Wisconsin, in the Menomonee cession, and in other portions of the State, the surveys of large bodies of land will have been completed before the close of the season, ready for market next year and from the showing made as to the settlements number of inhabitants, and saw-mills found in those regions, there is every reason to believe the new lands will command ready sale.

Since the publication of the late decision of the Supreme Court of the United States on the boundary question between the States of Missouri and Iowa, instructions have been given to the respective Surveyors General for those States to close and connect the lines of the public surveys with the boundary on both sides of it. The work will be accomplished at the earliest practicable period.

The execution of the law granting the swamp and overflowed lands, unfit for cultivation, to the States respectively, is occupying great attention.

A resolution of the Senate was passed at its last session, "That the forthcoming report of Doctor David Dale Owen, United States Geologist, on the geology of Iowa and Wisconsin, and also the forthcoming report of Messrs. Foster and Whitney, United States Geologists, in relation to the iron region of Lake Superior, in Michigan, be ordered to be printed; together with the maps, diagrams, sketches of scenery, and illustrations, which will accompany the same, respectively; and that the work be executed during the recess of Congress, under the special direction of the Commissioner of the General Land Office, in time to be presented to Congress at an early day of the ensuing session." The omission in the resolution to make an appropriation for those works, or to indicate the extent of the required publication, imposed serious impediments to their publication.

The access to the mining region of Lake Superior is at present difficult and expensive. The waters of that lake all flow through the St. Mary's river, and around the falls (Sault Ste. Marie) there is a portage of about a mile, across which provisions, copper ore, &c., have to be transported; and vessels destined for navigation that lake, already built, have also to be transported across that portage, at great cost, there being no timber fit for ship-building found near the lake. With a ship canal cut across the portage, a fresh impulse would be given to the mining operations as to copper; and it is represented that the iron ore of that region promises to be equally attractive, both as to abundance and purity. The Commissioner invites attention to the subject, with the suggestion that should Congress see fit to grant to the State of Michigan a quantity of land to aid in constructing such a canal, the mining interests would be promoted by it, and the sales of public lands in the upper peninsula of Michigan much increased.

Some idea may be formed of the extent of the official operations of this Bureau, when it is considered that the archives of the General Land Office consist of seven thousand three hundred and eighty-three folio manuscript volumes; that about one million two hundred and twenty-one thousand patents of different kinds, all duly recorded, have been issued; and that, as preliminary to the preparation of these patents, the examination of about two million nine hundred and fifteen thousand five hundred title papers were necessary, all of which are on file.

Report of the Commissioner of Pensions.

The Report of Mr. J. E. Heath, Commissioner of Pensions, exhibits a favorable condition of affairs in that bureau. The whole number of pensioners on the rolls is 19,611—a slight diminution, as compared with the preceding year. The whole amount expended for pensions during the past year, ending the 30th of September, is, as far as can be ascertained, $1,439,848.

"Since the last annual report, 3,308 warrants have been issued for services in the Mexican war. These necessarily required much time, care, and attention, most of them being suspended cases.—Much labor is also employed in the examination necessary to prevent the issue of more than one warrant to a claimant under both these laws. In many cases applicants filed separate applications for their services in the several Indian wars and in that of 1812."

The passage of the act of 28th of September, 1850, having induced inquiry into the rights of those who served in the war of 1812, many just claims for that service have been brought to light. The numerous examinations necessary to decide whether claimants under the act of 1850 had received or were entitled to bounty for services in the war of 1812, have materially increased the labors of the latter division in this office. Ninety two warrants have been issued in the past year, under the acts of 24th of December, 1811; 11th of January, 1812, and 10th of December, 1814, and there are now 450 suspended claims under those acts.

Thus it will be seen that since the last report from this office, there have been issued under the acts of 1811, 1812 and 1814, ninety-two warrants, to wit:

					Acres.
65 warrants for	160	acres each,	amounting to		[illegible]
36	"	40	"	"	1,440
1	"	320	"	"	320

Under the act of 11th February, 1847,

3,026 warrants for	160	acres each,	amounting to		484,160
223	"	40	"	"	8,920

Under the act of 1850 to 1st Nov. 1851,

9,900 warrants for	160	acres each,	amounting to		1,598,400
19,543	"	80	"	"	1,563,440

—and 63 certificates for $100 each, in lieu of 160 acres, and 2 certificates for $25 each, in lieu of 40 acres.

Up to the 1st of November, about one hundred and fifty seven thousand cases had been filed, leaving, after deducting such as were fully or partially acted on, upwards of eighty thousand still to be considered. The suspended cases (about twenty-two thousand at the time mentioned) require much more labor than the same number of ordinary claims, and give rise to a heavy correspondence.

The act of 21st July, 1848, made certain provision for the widows and orphans of officers and soldiers in the Mexican war. The number who have received the benefit of the act, and are now on the rolls, is 1,750.

CONGRESSIONAL.

Washington, Dec. 9.

SENATE.—Mr. Houston, of Texas, appeared today.

When the reading of the journal was concluded Mr. Miller, (whig,) of New Jersey, presented a petition from several petty officers and seamen of the United States Navy, praying Congress to abolish the laws which had been attached to the Naval Appropriation bill, prohibiting them from exchanging rations of beef and pork for vegetables and fruits. Mr. M. said no persons in the public service had fewer comforts than "Jack." We had taken away his grog rations, and he has submitted to have his flogging abolished—with forbearance he submitted; but now, to take away his vegetables and fruits was too bad. Referred to the Naval Committee.

Mr. Brodhead, (dem.,) of Pennsylvania, presented petitions from Pennsylvania against the introduction of foreign paupers and convicts.

Mr. Underwood, (whig,) of Kentucky, presented petitions from Missouri and Virginia against the employment of chaplains in the public service. Referred to the Judiciary Committee.

Mr. Gwin, (dem.,) of California, presented a petition for the increase of the salary of the Judge of the Northern District in his State.

On motion by Mr. Davis, (whig,) of Massachusetts, the bill of the last session, making provision for the better security of the lives of passengers on vessels propelled in whole or in part by steam, was referred to the Committee on Commerce.

Mr. Stockton, (dem.,) of New Jersey, presented a memorial of numerous citizens of Newark, N. J., setting forth that they are well acquainted with John S. Thrasher, lately condemned by the authorities of Cuba. They narrate the reported circumstances of his unjust and unfair mock trial, and pray that the government will take such measures as will prevent an honorable American citizen from being sent in chains, for a long imprisonment, as a galley slave.

Mr. Stockton said he had great respect for the ancient monarchy of Spain; but he should be glad if she would amend her laws. Her criminal processes were rather summary—a little too much so. It was no joke. Punishment followed condemnation very rapidly. He had not full information on this subject, and desired now to obtain it. He hoped, when all was known, that it would not appear as badly as the petition represented. He was not for intervention; but if the rights of an American citizens had been invaded he should have another motion to make. He moved that the petition be referred to the Committee on Foreign Affairs, and offered the following resolutions which was adopted.

Resolved, That the President be requested to lay before the Senate, if not incompatible with the public interests, all the information he may possess, touching the imprisonment of Mr. John S. Thrasher, in a dungeon in the castle of Havana, in the island of Cuba.

Mr. Cass, (dem) of Michigan, submitted a resolution, calling for information relative to the attack on the American steamer Prometheus, by a British national vessel. Laid over.

Mr. Seward, (Whig) of New York, in behalf of his colleague, Mr. Fish, introduced a bill to establish a U. S. Mint in the city of New York. Referred to Finance Committee.

Mr. Hale, (free soil) introduced a joint resolution authorizing the President to interpose his friendly offices with the French republic in behalf of Abdel Kader.

Mr. Rhett, (southern rights dem.,) of South Carolina, introduced a bill to indemnify South Carolina, for moneys expended for the United States during the Seminole war.

Mr. Felch, (dem) of Michigan, introduced a bill for a Ship Canal around the Falls of St. Mary.

Messrs. Walker, of Wisconsin, Felch of Michigan, Dodge of Wisconsin, and Downs of Louisiana, introduced bills granting land to their respective States, for the construction of railroads.

Mr. Bright of Indiana offered an amendment to the rules, so as to have the election of the Senate officers laid over.

Mr. Borland, (dem.,) of Arkansas, introduced a bill for the relief of the widow of Gen. Worth.

Mr. Norris, of New Hampshire, introduced a bill for the relief of the widow of General John McNeil.

Mr. Dodge, (dem) of Iowa, introduced a bill to improve the navigation of the Upper Mississippi, and it was made a special order for Wednesday week.

Mr. Shields, (dem.,) of Illinois, moved to postpone the consideration of Mr. Foote's resolution. Carried by 13 maj.

Mr. Seward moved to take up his Kossuth resolution, which was agreed to.

Washington, Dec. 10.

Mr. Walker of Wis., gave notice of his intention to introduce a bill granting land for the improvement of Fox and Wis. rivers.

Mr. Fish, of New York, presented petitions from the Assistant Marshals in New York, asking for additional compensation for their services in taking the Census.

Mr. Dodge gave notice of a bill, granting lands to aid a Railroad from Milwaukee to the Miss.

Mr. Geyer gave notice of a bill for a similar object in Mo.

Mr. Underwood introduced a Resolution directing an inquiry of the Committee on Roads and Canals, as to the estimate of surveys, &c., for the purpose of building artificial reservoir to make the navigation of the Ohio permanent.

—Adopted.

Mr. Underwood from the Committee on Public Lands, reported back the Joint Resolution making land warrants assignable.

The motion of Mr. Seward for a Joint Resolution of welcome to Kossuth, was taken up.

Mr. Sumner, of Mass, having the floor, commenced his speech amidst the most profound silence. He said that he would not have spoken thus early but for the importance of the occasion. He proceeded to state his reason in the most glowing terms. Congress, said Mr. Sumner, had invited him—the hearts of the people were open to receive him, and Congress could not turn its back upon him. Kossuth deserved this reception and much more for his remarkable services. Mr. S. bowed reverently before such a character. In himself he was more than an army—more than a Cabinet.

The Resolution offered by Mr. Seward was free from all objections and could not give just cause of offence in its wording, as it is neither expressed or implied intervention. He was opposed to all armed interference.

He could not support Mr. Berrien's amendment, because it was attached to what was designed as an act of courtesy. A declaration most ungracious and wholly out of place. It was for that reason offensive, and would impair if not destroy its value on this account. No generous hospitality makes terms or conditions with a guest, and such hospitality he hoped Congress would tender to Kossuth.

Mr. Stockton of New Jersey followed in support of the resolution. He said he was glad to find that Kossuth had been so nobly received in New York, and it was his desire to see him as cordially welcomed here. He had no fear of foreign entanglements—they had no reason to be afraid. They had a Secretary of State, who, with one-half of his gigantic mind could blow them all to cobwebs—they had a navy equal to any emergency, and he was not afraid of departing from the lessons their fathers taught them. Changes he said had taken place in principles regulating foreign intercourse which required new policy.—He had no sympathy with the fashionable laudations of the British Government, and believed that there could be no freedom in the world while Great Britain was allowed to have the ascendency. It was time the U. S. proclaim themselves master of the sea. The period was at hand when they would be called upon to dictate freedom and peace to the nations of Europe.

Mr. Clemens, of Ala., followed in opposition to the resolution. He said that Senators had assumed too much when they based Kossuth's claims to a reception upon his being a republican, and proceeded to quote extensively from the columns of the N. Y. Courier and Enquirer, to show that he did not preach Republicanism until compelled to in exile. The Sclavonians were seeking Republican freedom, while the Hungarians kept them down. He detracted largely from the merits accorded to Kossuth, and said that he was not equal to Jefferson as a Statesman, nor Jackson as a General, and as to Washington, he was inferior to him in every respect.

Mr. Shields regretted much the course the discussion had taken and feared that it would prove disastrous to the cause which brought him to our shores. He regretted that Kossuth had been so unjustly treated by the papers and by the Alabama Senator. He vindicated him from the many assaults made upon him; in answer to Mr. Clemens, he said he regretted the parading before the world of their views upon the question of nonintervention. They might act upon it, but why tell the world? He prophesied that Kossuth would go back, and within two years they would see him leading in such a revolution in Europe as was never before witnessed.

This age had produced no man to compare with Kossuth. Providence had raised him up to redeem the oppressed, not Hungary alone, but all Europe. He was in politics and statesmanship what Napoleon was in war.

Mr. Cobb introduced his bill relative to Land Warrants which simply makes them transferable. After some delay for want of a quorum, the bill was put upon its passage and carried without a division.

THE TAIL OF THE COMET

IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established wherever it has been used.

BY THE O'REILLY LINE.

Washington, Dec. 15.

House.—Mr. Bayley, of Va., offered a resolution which was adopted, calling upon the President for information respecting the imprisonment and conviction of John S. Thrasher.

A resolution from the Senate, tendering a welcome to Kossuth in behalf of the United States, was then taken up and adopted without debate, under the previous question. Ayes, 181; Nays, 16.

Mr. Fitch gave notice of a resolution, reversing the declaration of Congress, of 1846, that the Mexican War was unconstitutionally begun. He desired the unanimous consent of the House to introduce the bill; but objection was made.

Several resolutions were then introduced, calling upon the President for a statement of the condition of affairs in Utah; as to the seizures, and confiscation of the barques *Georgiana* and *Sarah Sands*, by the Spanish authorities, and also in relation to the treaties between Spain and England for the protection of Cuba.

Mr. Marshall introduced a bill authorizing the payment into the Treasury of California of all the money collected in the ports of that State, on imports, since the treaty with Mexico, and prior to her admission into the Union. A debate arose on the reference, and before taking the question,

The House adjourned, at 5 P. M.

St. Louis, Dec. 15.

River full of floating ice. Last night was very cold. At half past 7 A. M. the thermometer stood 2 degrees above zero. The river will probably freeze over to-night sufficient to close in the steamers. The river is swelling slightly. The upper Missouri at last accounts is also rising—the Illinois is at a stand. Business is limited and prices unsettled.

New York, Dec. 10.

Kossuth was presented with an address by Mr. Bags, in behalf of the M. E. Church of New York Brooklyn and Williamsburg. Kossuth returned thanks for the kind sympathy expressed for his country and himself, and also to the allusions, difficulties, &c. He promised a more extended, written reply.

The Democratic European Committees, headed by Gen. Avezzana, next presented their address in the French language, on the balcony of the Hotel, beneath which were assembled at least 8,000 persons. He replied in French, but in so low a tone that his voice could scarcely be heard in the streets. At the conclusion of the address, he was presented with a rich red silk flag, having inscribed upon it "Democratic Europeans." As he retired, the French citizens, accompanied by a number of bands, sang the Marsellaise Hymn.

He was next addressed by a Delegation from Baltimore, being a Committee on the part of the Common Council and the people of that city.—His reply was the most eloquent speech he had yet made in this country—some parts affecting his audience to tears. He alluded to the struggle made by his country to throw off her chains, and said that he came to this country to seek assistance, for another attempt to be free.

Upon the conclusion, he decided to receive no more addresses to-day, and to see no more company of any sort, as he was worn out, exhausted and very sick.

Washington, Dec. 9.

Despatches are to be sent to Mr. Barringer, our Minister at Madrid, in behalf of Mr. Thrasher.

The Treasury Report is now nearly ready.

The Secretary has found no errors in the receipts of cotton.

The Standing Committees of the House, as usual, give great dissatisfaction to disappointed members.

Disney of Ohio, will probably decline his secondary Committee.

The Committee upon Ways and Means, upon the whole, is favorable to Pennsylvania on the Tariff question.

The Butler movement is going on with great energy. The ticket is to be Butler and Pierce of New Hampshire, which will satisfy the Democratic ultras of both sections, and Benton also.

The Southern ultras will give up Buchanan for this ticket.

As soon as the Kossuth resolution shall have passed, the President will invite him to Washington, and orders will be given to the Navy Yard and to all the military stations and forts upon the road, to receive him with the firing of salutes, and with other marks of distinction.

Washington, Dec. 10.

The Intelligencer, in speaking of Kossuth's demands, says "the hurrahs of the New York people are no proof of the sentiments of the people with regard to entangling foreign alliances."

The Republic says that "no public man has received more damage in a briefer period at the hands of a few officious and inconsiderate friends than Kossuth, and hopes that he will rid himself of them and start afresh with a truer estimate of mob oratory, and a sounder appreciation of the principles and policy of the American people—that the Senate will not prove wanting in the higher duties of hospitality, when the proper time for their exercise shall have arrived."

New York, Dec. 9.

Yesterday, the interdict was taken off the Board of Canvassers, in the Fourteenth Ward, in reference to the contested votes in the case of Attorney General Chatfield; but it is discovered that the Board of Canvassers is extinct—its legal right to sit and act, having terminated some days since.

The rejection of the 2d district of the 14th ward was based upon the following facts, all conclusively established by affidavits:

1st. That 4 Inspectors officiated there thro' most of election day. The most active being an addition to the legal Inspectors.

2d. That the vote through a considerable part of the day were sworn in on Olendorf's Grammar instead of the Bible, whereby all the oaths administered were rendered legally invalid, and perjury unpunishable.

3d. The polls were kept open and votes taken for at least 20 minutes after the time at which the law imperatively demands that they be closed.

Boston, Dec. 10.

The steamship Asia, Capt. Judkins, sailed at noon for Liverpool.

She takes out $102,000 in specie, and 40 passengers.

New York, Dec. 10.

Kossuth held a levee this morning, at the Irving House, and received a number of deputations and private persons.

At noon a great number of European friends of republicanism, presented him with an Address in Italian. There was also an Address presented from the Venezuelan republicans.

Harrisburg, Dec. 8.

A Negro man named Wm. Kelly, *alias* Bell, claimed by Jacob Righter, of Carroll Co., Md., was arrested in Lycoming county and brought here.

After a short examination before Commissioner McAllister, he was sent back to Maryland before day-break.

☞ Capt. D. H. Green, of the schooner Atalanta, we regret to say, met with a severe accident on lake Huron last week. In the midst of a severe gale he was struck on the top of his head by the main boom, which took the scalp clean off, "better," he tells us, "than ever any Indian ever did the work." We are happy to state that the Captain is now about, although he complains of a very sore head.—*Painesville Telegraph.*

Theatrical.—It is rumored, and the rumor has not been disputed, that a prominent member of the Museum company, and a universal favorite among all who enjoy the pleasure of his acquaintance, recently "Drew" a *capital* prize. He held a *marriage* policy. "Benedict" says, "good enough for him."—*Albany Register Dec. 10.*

TAKE NOTICE!

PATENT

BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massillon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1,25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common-sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

JOHNSON'S CHEMICAL

HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st.

FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, ever before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and lustrous state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville.*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do, buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

Newark, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case.

A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. B. TRIPP & Co.

Hermansville, Oswego Co., May, 1848.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

Norway, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for two months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knees, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co., of Buffalo, which is a worthless imitation and the pamphlets a "base forgery" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. The public are cautioned against these mixtures.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceeded his, have been cast aside as unworthy of the slightest notice?" The it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless, mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable, and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla, Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members of the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,
E. STEVENSON.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable. L. P. YANDALL, M. D.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two tea-spoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.

Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

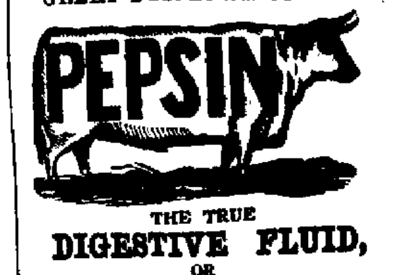
Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copywright and Trade Mark secured.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
